Chapter 1-- The Background

I know totally nothing about numerology... Totally no knowledge of astrology or anything along those lines...

My whole life up to 42 years old was spent on the strictly scientific... Pragmatic Side of things... Only what my five senses could demonstrate to me... However, always felt somehow guided or carried by something “other than me” ...

Something very subtle and at the same time very powerful... Dismissing it as something that probably was just my idea or my imagination and nothing else, since it was not tangible at all... If I could not see it probably was not real...

And... Who would believe me anyways??? ...

Plus, even when I definitely felt “that something” guiding me and carrying me, I was quickly totally absorbed by the “very real reality” that would drag me and completely engulf me in that total numbness that would not allow me to perceive and sense that powerful subtleness most of the time...

Such intense numbness!!!

Chapter 2-- The Last Five Years

But the last five years have been drastically different...

Something very intense and undeniable happened to me on January 7th of 2013, and after that I have very clearly discovered and developed my own way to sense and feel and interpret and translate everything into something very understandable and meaningful from the “everyday life point of view”
